

Frequently Asked Questions

How do I dispose of household hazardous waste?

As you know, it is against the law to put hazardous waste in with your garbage. You can properly dispose of your old latex paint, motor oil, transmission fluid, power steering fluid, batteries, and antifreeze at the Fort Bend County Household Hazardous Waste Center without harming the environment. For information about this facility, call 281-633-7527.

How can I properly dispose of paint?

Wet paint cannot be collected curbside. Dry paint will be collected if the lid is left off the can. To dry your leftover paint, mix cat litter or other absorbent with the wet paint and allow drying until solid. Remember, improper disposal of hazardous materials such as paint is against the law.

How do I properly dispose of tree limbs and brush?

Bulky items such as yard trimmings and tree limbs are collected on both collection days. Limbs must be less than 4" in diameter and less than 4' in length. It is helpful, but not required, to tie or bundle limbs.

When is heavy trash/appliance pickup?

Large items and appliances are picked up curbside on both collection days; however, residents are encouraged to use the second collection day of the week. Doors must be removed from refrigerators and freezers before placing them out for collection. Allied Waste has 24 hours to remove appliances with refrigerants. Some large or unusually heavy items are not collected curbside.

What items are not accepted in the trash?

Allied Waste will not pick up: automobile parts, tree stumps and logs larger than 4' in length or greater than 4" in diameter, dirt, construction debris, concrete, bricks, rocks, roofing materials, metal poles, trampoline frames, hazardous chemicals, lead batteries, motor oil, tires, gasoline, paint, landscape timbers over 2' long or fence pickets with nails.

What can I put in my recycling bin?

Items accepted for recycling include: paper items, #1 & #2 plastic jugs and bottles, and aluminum and bi-metal (tin) cans. Items not accepted in recycling bins include: plastic grocery bags, toys, dishes, buckets, styrofoam, cardboard boxes, cereal boxes, wet newspapers, pizza boxes, plastic containers which held oil, antifreeze, pesticides or other household hazardous waste, medical waste, aluminum foil, pie tins and scrap metal. If you need a recycling bin, call 281-275-2450.

Helpful Tips About Garbage Collection

- Allied Waste provides curbside collection of recycling once per week and curbside collection of trash, including heavy trash, green waste and tree limbs, twice per week.
- Solid waste must be placed at the curb no later than 7:00 a.m. the day of collection, and no earlier than 6:00 p.m. the evening before collection. This includes bags of yard waste.
- Garbage cans should be removed from the curb no later than 8 a.m. on the morning following collection.
- If you intend to place an unusual amount of trash or tree limbs at the curb, call us the day before, and we will make sure you get proper service.
- Garbage cans and trash bags must have a capacity of no less than 20 gallons and no more than 40 gallons. Smaller cans often get mistaken as trash.
- Garbage cans and trash bags must weigh 60 pounds or less.
- All solid waste and recycling placed out for curbside collection must be placed no farther than 6' from the curb and should not be placed on the street or sidewalk.
- Refrigerators and freezers must have the doors removed before being placed at the curb for collection.
- Please bag your trash to minimize loose litter from dropping onto the ground.
